

BY-AGENT UNIQUE VS SHARED OUTPUT REPORT

Date: 2026-03-28 (UTC)

Purpose

- Distinguish unique agent production from shared/mirrored publication activity.

1) EXECUTIVE SUMMARY

- Unique production leader (outside Russ session): Denise
- Tracy, Tom, and Zac activity in this window is primarily shared publication/index replication
- Prior executive summary undercounted Denise's unique media output volume

2) AGENT DETAIL

A) DENISE — UNIQUE MEDIA PRODUCTION (HIGH)

Unique files observed in Denise workspace output

- Denise_Higgs_Cinematic_Cut_v1.mp4
- Resortments_Humanoid_Cinematic_v1.mp4
- Resortments_Humanoid_Cinematic_v2_with_voice.mp4
- higgs_intro.mp4
- higgs_factory.mp4
- higgs_kpi.mp4
- higgs_finale.mp4
- higgs_townhome.mp4
- higgs_townhome_amenities_end.mp4
- shot1_anim.mp4 ... shot6_anim.mp4
- shot1.png ... shot6.png

Assessment

- Category: Media/Cinematic production
- Productivity: High
- Distinct contribution: Strong (not just mirrored library/index files)

B) TRACY — SHARED PUBLICATION / INDEXING (MEDIUM)

Observed pattern

- Predominantly company/files updates, clickable index paths, and backup replication
- Limited uniquely attributable standalone media/docs in this time window

Assessment

- Category: Publishing/organization workflow
- Productivity: Medium (execution support)
- Distinct contribution: Moderate-low uniqueness in this snapshot

C) TOM — SHARED PUBLICATION / INDEXING (MEDIUM)

Observed pattern

- Similar to Tracy: mostly mirrored shared outputs and index/backups
- No major unique standalone deliverables surfaced in this scan window

Assessment

- Category: Publishing/organization workflow
- Productivity: Medium (execution support)
- Distinct contribution: Low uniqueness in this snapshot

D) ZAC — SHARED PUBLICATION / INDEXING (MEDIUM)

Observed pattern

- Similar mirrored structure to Tracy/Tom in this daily window
- No major unique standalone output surfaced in this scan window

Assessment

- Category: Publishing/organization workflow
- Productivity: Medium (execution support)
- Distinct contribution: Low uniqueness in this snapshot

3) PRODUCTIVITY CLASSIFICATION (TODAY)

Unique Output Score (today)

- Denise: High
- Tracy: Low-Medium uniqueness (shared-heavy)
- Tom: Low-Medium uniqueness (shared-heavy)
- Zac: Low-Medium uniqueness (shared-heavy)

Operational Value Score (today)

- Denise: High (creative/media generation)
- Tracy/Tom/Zac: Medium (distribution/indexing/publishing support)

4) MANAGEMENT RECOMMENDATION

- Keep Denise focused on media/cinematic production where differentiated output is strongest.
- Assign explicit unique weekly deliverables for Tracy, Tom, and Zac by function area:
 - Tracy: leasing/material ops analysis pack
 - Tom: field/plant execution pack
 - Zac: architecture/engineering package
- Continue shared indexing, but score it separately from unique production.

End Note

- This report reflects visible file-output evidence in today's timestamp window.
