

Irrigation Valve Box Lid Shapes & Sizes — Cheat Sheet (v1)

Use this in field to identify lid style before ordering replacements.

Common Lid Shapes

- 1) Round (circular) — very common for residential control valve lids
- 2) Rectangular — common for multi-valve boxes
- 3) Jumbo Rectangular — larger commercial/service boxes
- 4) Oval / Overlapping Oval — common replacement style in some brands
- 5) Pentagon / Specialty Utility — less common, municipal/utility styles
- 6) Brand-Specific Specialty Lids — must match box brand/model

Common Size Classes (listed by nominal lid size)

- 6"
- 7"
- 10"
- 12"
- 14"
- Larger commercial sizes (15"+)

Field Measurement Checklist (before ordering)

- Shape: round / rectangular / oval / other
- Opening dimensions: inside diameter (round) or inside L x W (rect/oval)
- Outside dimensions (if possible) for overlap fit
- Lid lip style: flat drop-in vs overlapping flange
- Markings on lid/box: brand name, model code, "CONTROL VALVE" text
- Quantity needed + color (typically green)

Search Terms That Work

- "14 inch round irrigation valve box lid"
- "oval irrigation control valve cover"
- "rectangular sprinkler valve box lid replacement"
- "[brand name] valve box lid"
